California Voting Rights Act (CVRA)

2

- ❑ Under the Federal Voting Rights Act (passed in 1965), a jurisdiction must fail 4 factual tests before it is in violation of the law.
- ❑ The California VRA makes it significantly easier for plaintiffs to force jurisdictions into “by-district” election systems by eliminating two of the US Supreme Court *Gingles* tests:
 1. ~~Can the protected class constitute the majority of a district?~~
 2. Does the protected class vote as a bloc?
 3. Do the voters who are not in the protected class vote in a bloc to defeat the preferred candidates of the protected class?
 4. ~~Do the “totality of circumstances” indicate race is a factor in elections?~~
- ❑ Liability is now determined only by the presence of racially polarized voting

CVRA Impact

3

- Switched (or in the process of switching) as a result of CVRA:
 - ▣ At least 170 school districts
 - ▣ 28 Community College Districts
 - ▣ 105+ cities
 - ▣ 1 County Board of Supervisors
 - ▣ 15+ water and other special districts.
- Palmdale, Santa Monica and Santa Clara all fought CVRA challenges. All lost.
 - ▣ Palmdale spent nearly \$2 million on its defense
 - ▣ Santa Clara spent \$500,000 so far
 - ▣ Santa Monica spent at least \$5 million so far
 - ▣ Santa Clara and Santa Monica are appealing their initial defeats
- ▣ Key settlements:
 - Palmdale: \$4.7 million
 - Modesto: \$3 million
 - Highland: \$1.35 million
 - Rancho Cucamonga: \$1.3 million
 - Anaheim: \$1.1 million
 - Whittier: \$1 million
 - Santa Barbara: \$600,000
 - Tulare Hospital: \$500,000
 - Madera Unified: about \$170,000
 - Hanford Joint Union Schools: \$118,000
 - Merced City: \$42,000
 - Placentia: \$20,000

Map of San Diego County showing Latino CVAP by census block group. The map is color-coded according to the percentage of the Latino population. A legend in the bottom left corner shows the color scale: 0% to 25% (lightest), 25% to 35%, 35% to 50%, 50% to 65%, 65% to 75%, 75% to 100% (darkest), and Other (white). The map shows higher concentrations of the Latino population in the western and central parts of the county, particularly around San Diego and Escondido. The eastern part of the county, including the Coachella Valley, shows lower percentages.

“Other” Language Spoken at Home

Middle Eastern residents are particularly concentrated in El Cajon and the unincorporated area just south of the city.

Defining Communities of Interest

9

1st Question: what is your neighborhood or community of interest?

A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.

Possible community feature/boundary definitions include:

- ❑ School attendance areas
- ❑ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- ❑ Areas around parks and other neighborhood landmarks
- ❑ Common issues, neighborhood activities, or legislative/election concerns
- ❑ Shared demographic characteristics
 - ❑ Such as similar levels of income, education, or linguistic isolation

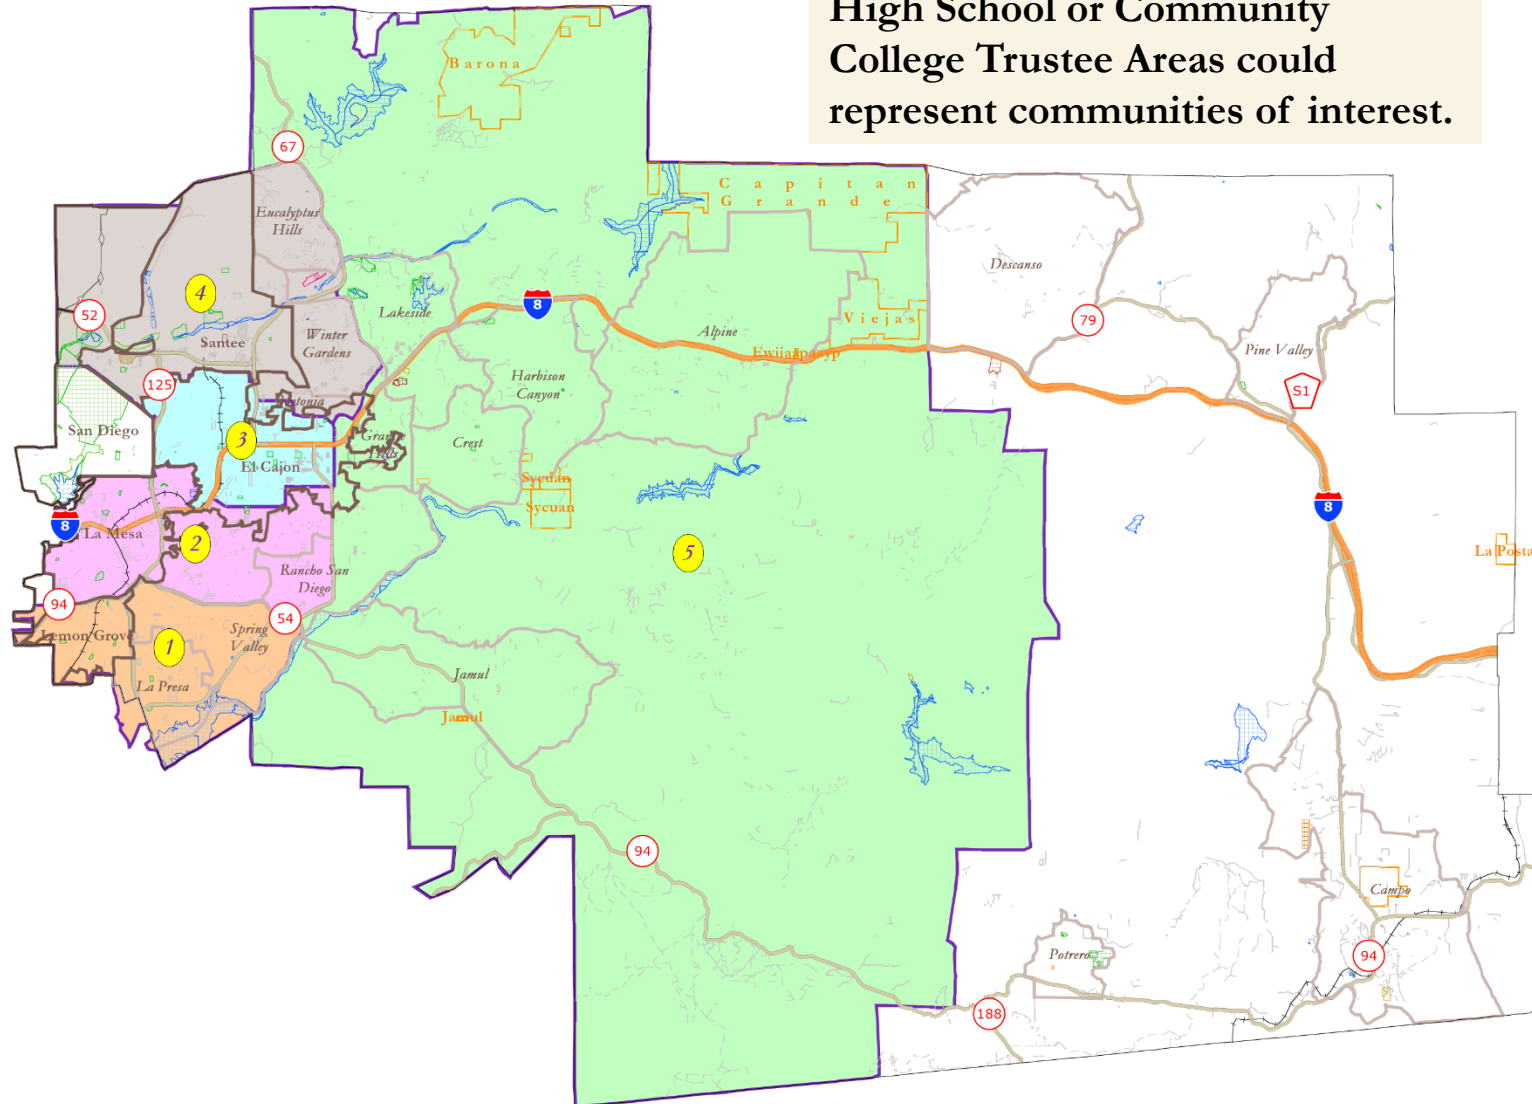

2nd Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?

High School Trustee Areas

10

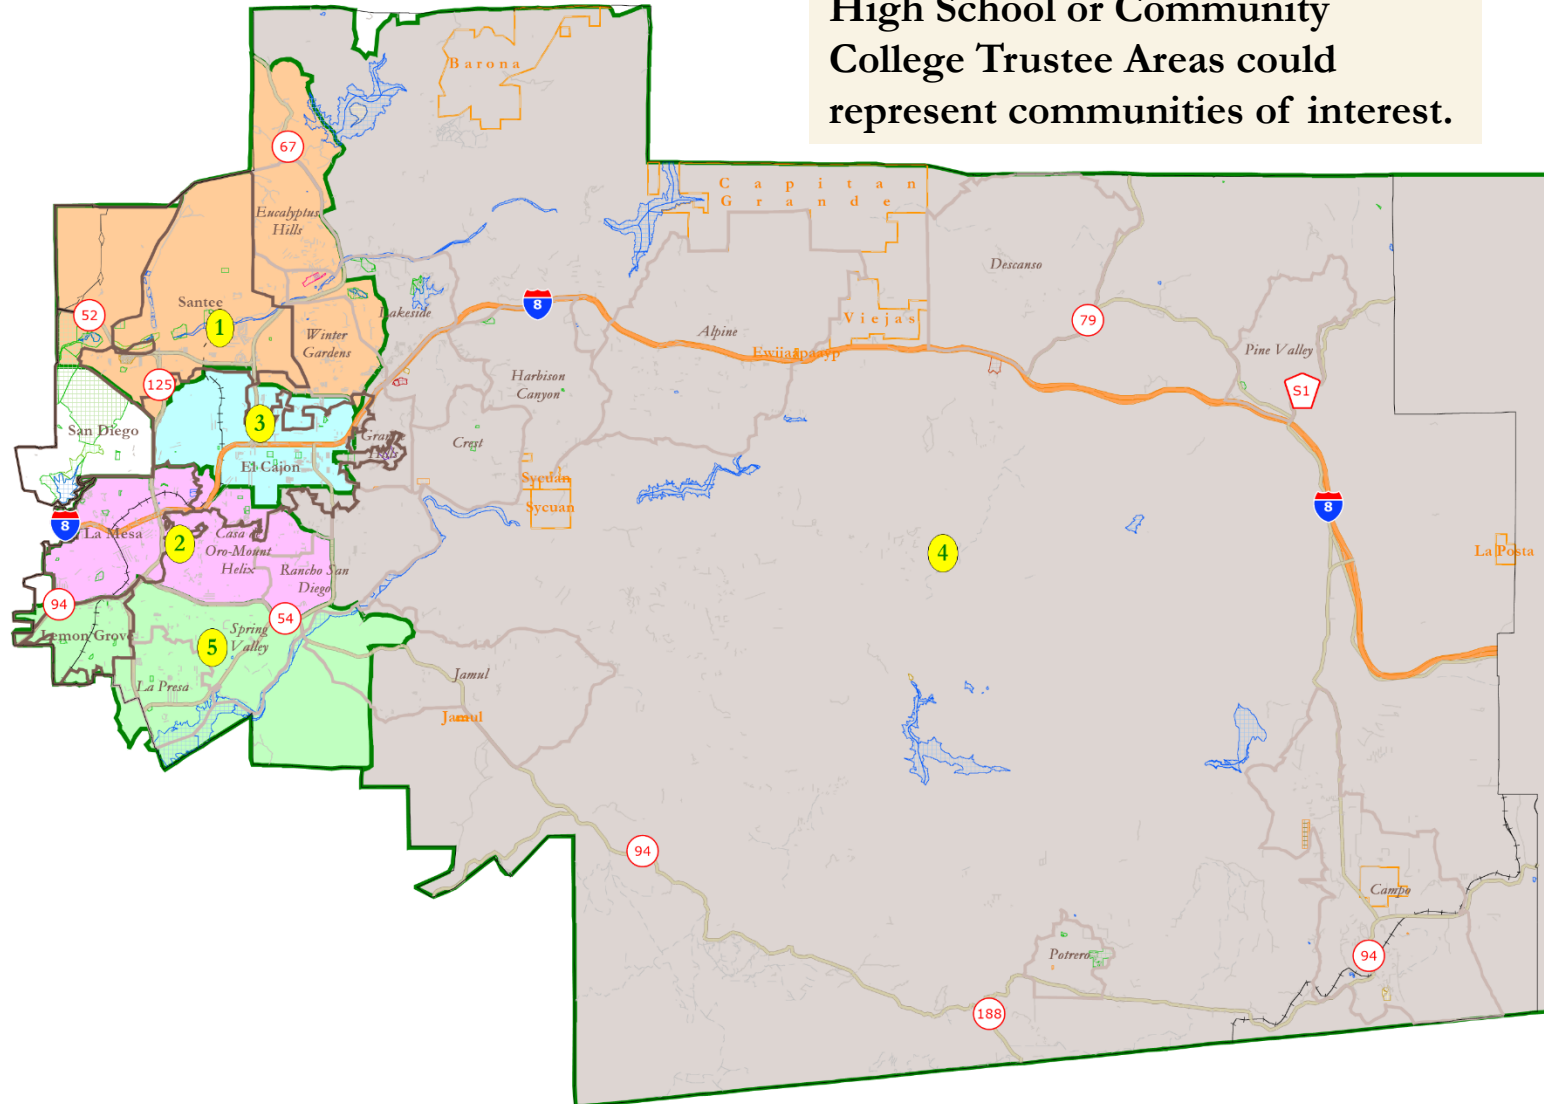

High School or Community College Trustee Areas could represent communities of interest.

Community College Trustee Areas

11

High School or Community College Trustee Areas could represent communities of interest.

Sample Compact Maps

Sample Multiple-Representative Maps

13

South Pasadena

Examples of maps where a desire to have all members touch downtown (Pasadena) or rural areas (Central), or as many neighborhoods as possible (South Pas), led to policy-driven but non-compact maps.

Public Hearing & Discussion

14

1. What is your neighborhood or “community of interest”?
2. Do you prefer your neighborhood be kept together in one trustee area or to have multiple representatives?
3. What are other communities of interest in the District that should be considered when drafting maps?
